

Academic Enhancement & Leadership Development Centre

(ADeC)

August have definitely caught us in a web of hectic and long list of training! Nevertheless, we enjoyed the sessions and meetings we had with UM community. Check out some of the activities we had last month.

Workshop | Habits of Happy Lecturer

On 2 & 3 August 2017, ADeC organised a workshop under the Leadership and Wellbeing unit, on "Habits of Happy Lecturers". Trainers including En. Marzuki, Dr. Rozita Shaary (both are certified Neuro-Semantics and NLP Trainer), and LeadWell's Head of Unit, Dr. Amira Firdaus (who also holds a Beginners Level Certification in Meta-Coaching). It was full of engaging sessions and hands-on activities on emphasizing happiness in career.

Basic Course in Supervision

This two-day seminar that disseminates information about supervisory and postgraduate research candidacy processes and procedures, as well as imparts skills and strategies for supervising student research.

Basic Course in Teaching and Learning

This five-day intensive course designed to equip UM academicians with basic skills vital to teaching in higher education generally, and in UM specifically. Some of the newly introduced modules are Pedagogies and Strategies, iCGPA and Feedback on Learning and Teaching. Participants were exposed to basic aspects of teaching, including basic philosophy and pedagogy, scholarship of teaching and learning, as well UM-specific aspects of teaching in higher education.

Workshop | Understanding Your 21st Century Learners

On 17th August, Prof. Dato' Dr. Mohamed Amin Embi (Universiti Kebangsaan Malaysia) assist a group of lecturers in understanding more about Gen-Z and its learning. Participants were introduced to online tools that can be used in class as well as tips and knowledge shared by trainer.

Lecture Session | Questionnaire and Instrument Validity

For the very first time, ADeC organised a 3-hour lecture on Questionnaire and Instrument Validity attended by students and lecturers of UM, led by Dr. Mahmoud and Associate Prof. Dr. Yee Hway Ann (Faculty of Medicine). We are planning to expand our statistical research series so do lookout for our upcoming projects!

Workshop | SMART-PLS for Structural Equation Modelling

On 28 and 29 August 2017, we organised a workshop on Structural Equation Modelling using SMART-PLS, attended by lecturers and student from UM and other institutions around.
