Make sure you are in the Groups tab.

Click on desired group in the *Groups:* box.

Check the student and Instructor in the *Member of:* box

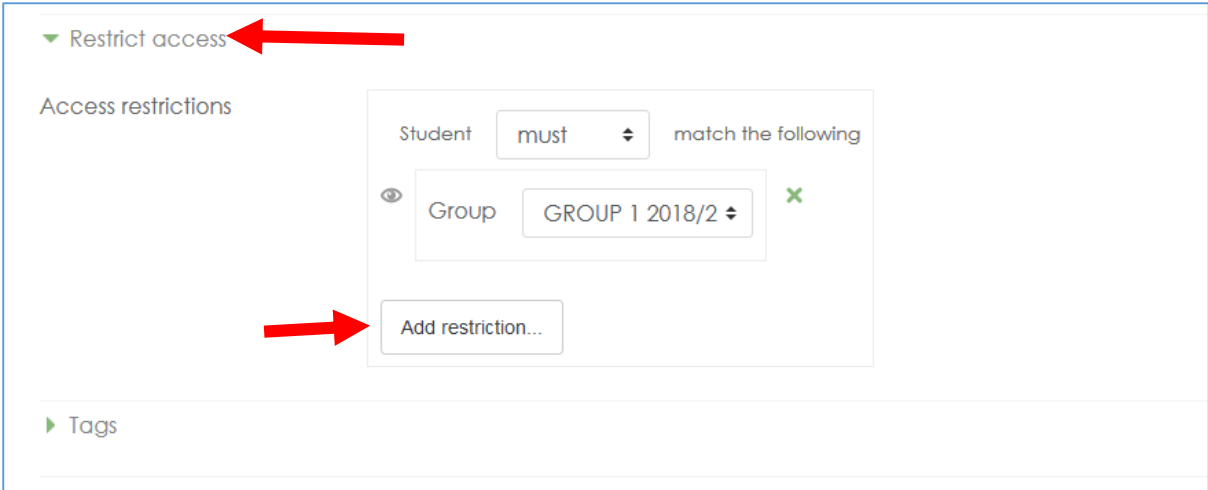

If any names that are not in the group, you may add/remove by click on 'Add/remove users' button.

Adding access restriction.

Done with the groups, now we can add access restriction to content or activities.

When adding activity or resources, in the setting, go to 'Restrict Access' and add restriction by clicking on the 'Add restriction...' button and select group accordingly.

Others will see restriction note if they are not allowed to access the content (see picture below).
