ENTRY REQUIREMENT FOR MASTER OF SCIENCE IN STATISTICS

Qualification

Bachelor of Science (Honours) degree with a strong statistical background from a recognized university

OR

Bachelor (Honours) degree with a strong statistical background from a recognized university and with at least one year working experience in a relevant field.

English Language Requirement (for International Students*)

*(*Only applies to foreign applicants with degrees where the medium of instruction is not English.)*

1. All students must be sufficiently competent in English and must satisfy at least one of the following requirements.

    IELTS: At least a band 5.5

    TOEFL: 550 (for paper-based total), 213 (for computer-based total), 80 (for internet-based total)

2. Applicants with TOEFL score between 500-549 or IELTS band 5 may still be considered and be given a conditional offer. Applicants accepted under this category are required to register and pass an English Language course conducted by the University before they are allowed to register for the postgraduade programme.

3. Applicants with a TOEFL score below 500 or IELTS band below 5 may not necessarily be considered for entry into the programme. However, if offered a place, the Faculty will require the applicant to fulfill certain English language requirements first before being allowed to register for the postgraduate programme.
