

Visit from Hanyang University, South Korea

Professor Myung-Soo Han, the President of Korean Association on Harmful Algal Bloom (HAB) and Korean Society of Environmental Biology from Hanyang University, visited Bachok Marine Research Station, Institute of Ocean and Earth Sciences, University of Malaya from 4-5 September, 2014. The visit was planned to discuss collaborative research between Malaysia-South Korea in red-tides forming harmful algae species. The Head of Station, Assoc. Prof. Dr. Lim Po Teen delivered a talk introducing the functions, organization structures of IOES and research activities in Bachok Marine Research Station, IOES, UM. Prof. Han and his PhD. student, Mr. Jin-Ho Kim were given a tour to see the currently available facilities in the station. At the end of the visit, memorandum of understanding (MoU) will be initiated between University of Malaya and Hanyang University to strengthen future research.
