

**UNIVERSITI  
MALAYA**

# **IMPACT ORIENTED INTERDISCIPLINARY RESEARCH GRANT PROGRAMME (IIRG) 2020**

**PROF. DR. SAIFUL ANUAR KARSANI**

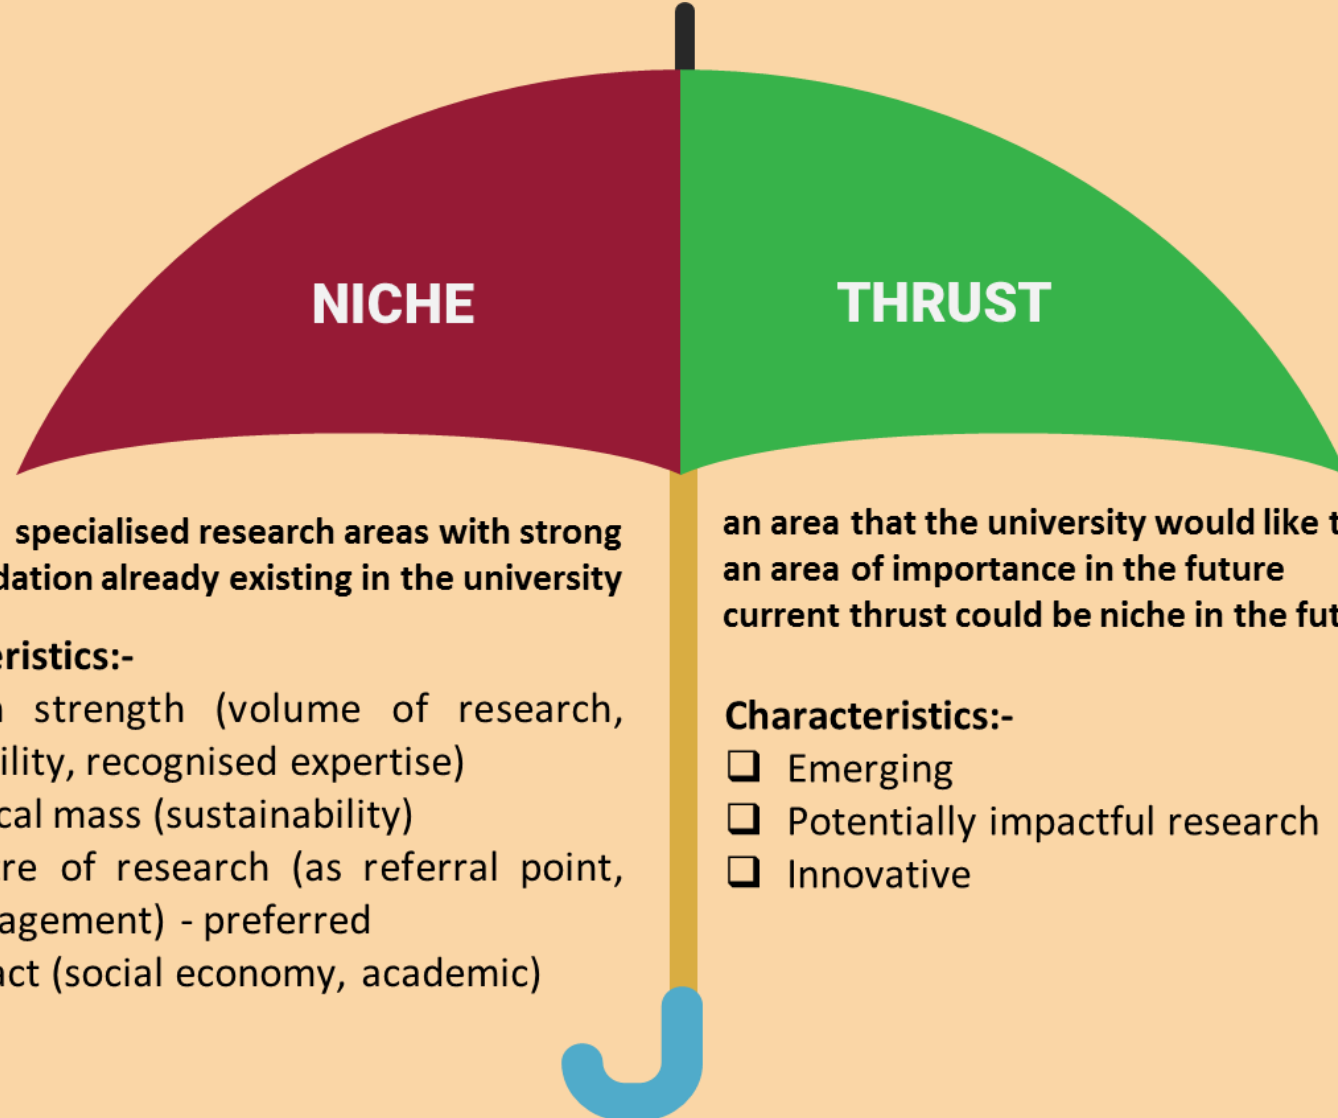

**Dean Frontiers of the Natural World Research Cluster;  
Acting Dean Health & Well-Being Research Cluster**

**2<sup>nd</sup> July 2020 (Thursday)**

**Auditorium, Level 1, Research Management &  
Innovation Complex, UM**

# RESEARCH CLUSTER AREAS NICHE & THRUST

In alignment with UM's aspiration to be the preferred partner in research & champions in leading interdisciplinary research, Research Cluster will focus on research areas with promising performances & experts-ready with critical mass (Niche) and emerging areas (Thrust).

specialised research areas with strong foundation already existing in the university

#### Characteristics:-

- With strength (volume of research, visibility, recognised expertise)
- Critical mass (sustainability)
- Centre of research (as referral point, management) - preferred
- impact (social economy, academic)

an area that the university would like to push an area of importance in the future current thrust could be niche in the future

#### Characteristics:-

- Emerging
- Potentially impactful research
- Innovative

# RESEARCH CLUSTER AREAS NICHE & THRUST

In alignment with UM's aspiration to be the preferred partner in research & champions in leading interdisciplinary research, Research Cluster will focus on research areas with promising performances & experts-ready with critical mass (Niche) and emerging areas (Thrust).

## NICHE AREAS

## THRUST AREAS

Cultural, Heritage and Civilization 

Behavioral Studies 

Cancer 

Active Ageing 

Nature-inspired Technology (Drug Discovery) 

Energy 

Materials 

Education for the Future 

Smart Society 

Innovative Health 

Mental Well-Being 

Lifestyle Diseases 

Curiosity-driven Fundamental Research 

IR4.0 

Water & Environment 

Sustainable living 

# IIRG

**“To develop impactful research projects that address real world issues relevant to the society and industry. It is at these interfaces between different disciplines that creativity and innovation thrive”**

## DEFINITION - INTERDISCIPLINARY

a mode of research by teams or individuals that **integrates information, data, techniques, tools, perspectives, concepts and/or theories** from **TWO** or **more disciplines** or bodies of specialized knowledge **to advance fundamental understanding** or to **solve problems** whose solutions are beyond the scope of a single discipline or area of research practice.\*

\*Source: [https://www.nsf.gov/od/oia/additional\\_resources/interdisciplinary\\_research/definition.jsp](https://www.nsf.gov/od/oia/additional_resources/interdisciplinary_research/definition.jsp)

## AIMS

- **strengthen niche & nurture thrust areas**
- **encourage interdisciplinary research**
- **drive impact oriented research**

# THE CARROT ANALOGY© HAYATY

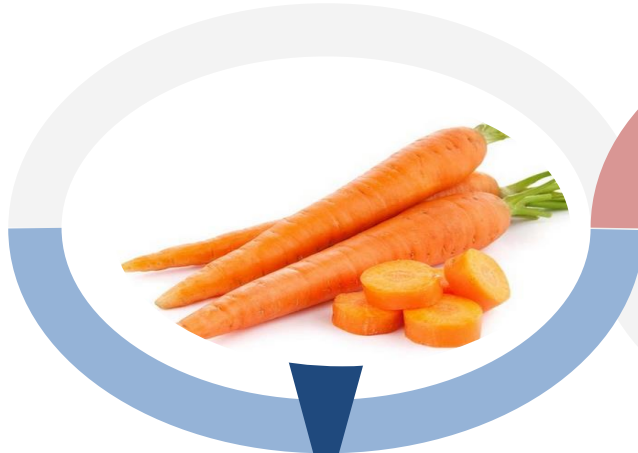

Addressing one problem by **including multiple perspectives and disciplines**. Researchers not integrating them. The disciplines maintain their distinctiveness and the results remain grounded in the framework of the root discipline

## MULTI-DISCIPLINARY

“across, over, beyond”—emergence of a **new perspective**. The research paradigms involve non-academic participants as (equal) participants in the process to reach a common goal—usually a solution to a problem of society at large. It can be considered as the culmination of interdisciplinary efforts. The field of ‘sustainability’ in essence is a transdisciplinary one.

## TRANS-DISCIPLINARY

## WITHIN DISCIPLINE

Problem within the frame of a **single discipline**. For example, a mechanical engineer focusing on material research working with material scientists, as collaborators they will publish in similar journals.

## INTER-DISCIPLINARY

“among, between, in the midst”—**integrating knowledge and methods from different disciplines** using a synthesis of approaches. Interdisciplinary concerns collaborations between contrasting academic disciplines or research methods for new applications, new analyses, or the creation of entirely new disciplines (Nicolescu 1997).

## IIRG: SPECIFIC CRITERIA

### NO OF SUB-PROGRAM

**$\geq 3$**  researchers must come from at least  
**2 different disciplines &**  
**2 different faculties**

### MAXIMUM CEILING / PROGRAM

#### DURATION

**24**  
MONTHS

**RM 300,000**  
SCIENCE

**RM 150,000**  
NON-SCIENCE

# SUMMARY OF IIRG CYCLE 2/2019

**B. EXECUTIVE SUMMARY** (max. 300 words: Should include, but not limited to background of research, objectives, problem statement (needs, approach, benefits, competition) and brief methodology)

**C. LINKAGES BETWEEN SUB-PROGRAMME** (max. 300 words)

**D. QUALITY OF RESEARCHERS**

**i. Research Team Track Record**

No.	Name	Faculty	H-Index	Citations	No. of Publications**	Role/ Contribution
1.						
2.						
3.						

\*\* For the past 5 years and **MUST** be relevant to the proposed programme

**ii. International Collaborations/External Collaborator and Stakeholders (MUST be relevant to the proposed programme)**

No.	Institution	Name of Researcher	Role/ Contribution
1.			
2.			
3.			

**E. TARGETTED RESEARCH OUTPUT(Please select at least 1 (ONE) from each category)**

**i. ACADEMIC OUTPUT**

No.	Details	Output
1.	ISI	
2.	IPR/Copyright	
3.	Human Capital Developments	
4.	Book (s)/Chapters in book (s)	
5.	Scopus / Peer reviewed journal articles (for non-science only & journal category A & B)	
6.	Policy	

**ii. NON-ACADEMIC OUTPUT**

No.	Details	Output
1.	Commercialization	
2.	Media Articles	
3.	Website	
4.	Software/Applications	
5.	Societal Engagement	
6.	Others: Please specify	

# RESEARCH IMPACT

Research impact is the good that researchers can do in the world. It consists of the non-academics benefit that arise, whether directly or indirectly from research.

# IMPACT

## RESEARCHER

**what could my  
research change**

**whom could my  
research benefit**

**How do I make this happen**

# Routes to Impact

Dissemination of my research

Engaging key stakeholders

Involving possible end users

Co-production

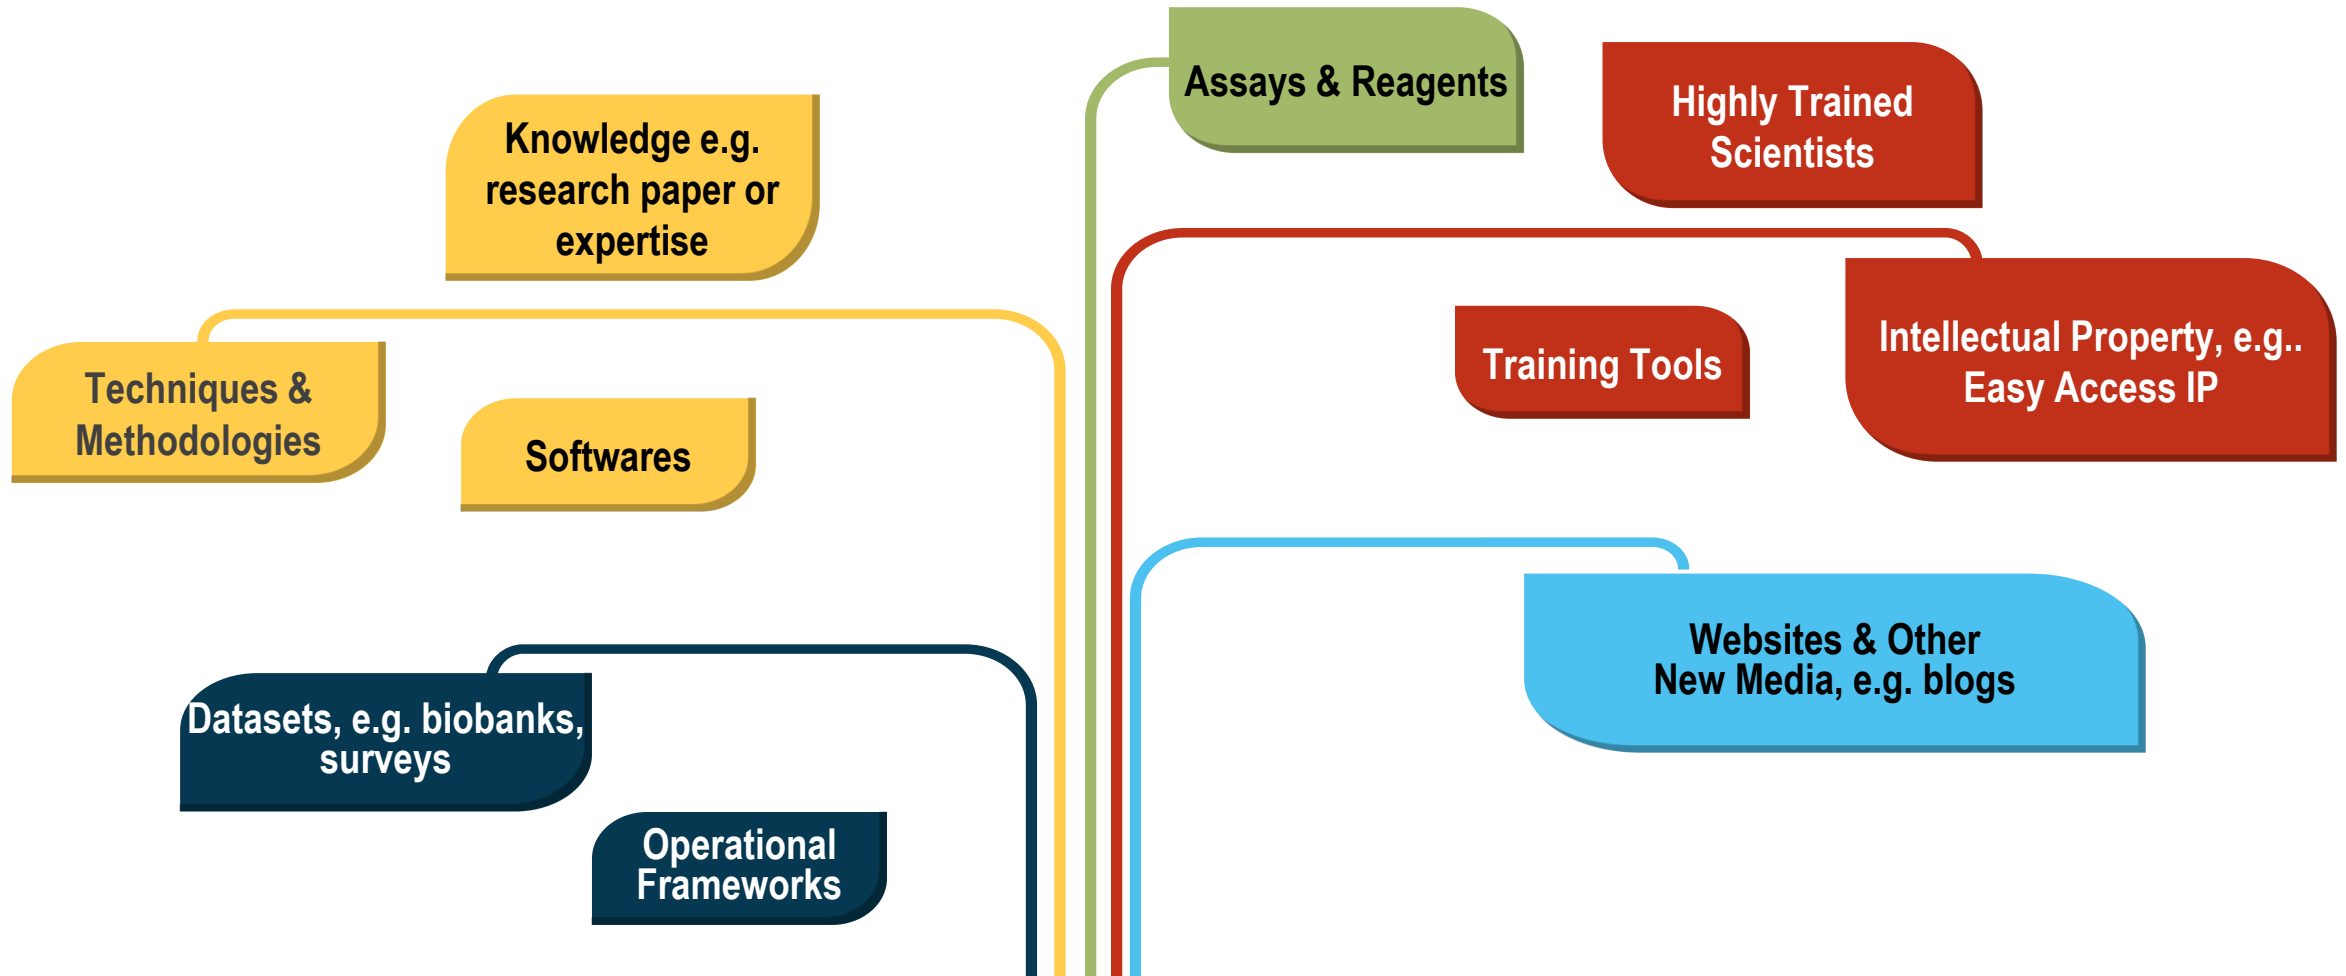

Uptake and use of my research outside academia

**IMPACT!**

My research itself is shaped & developed

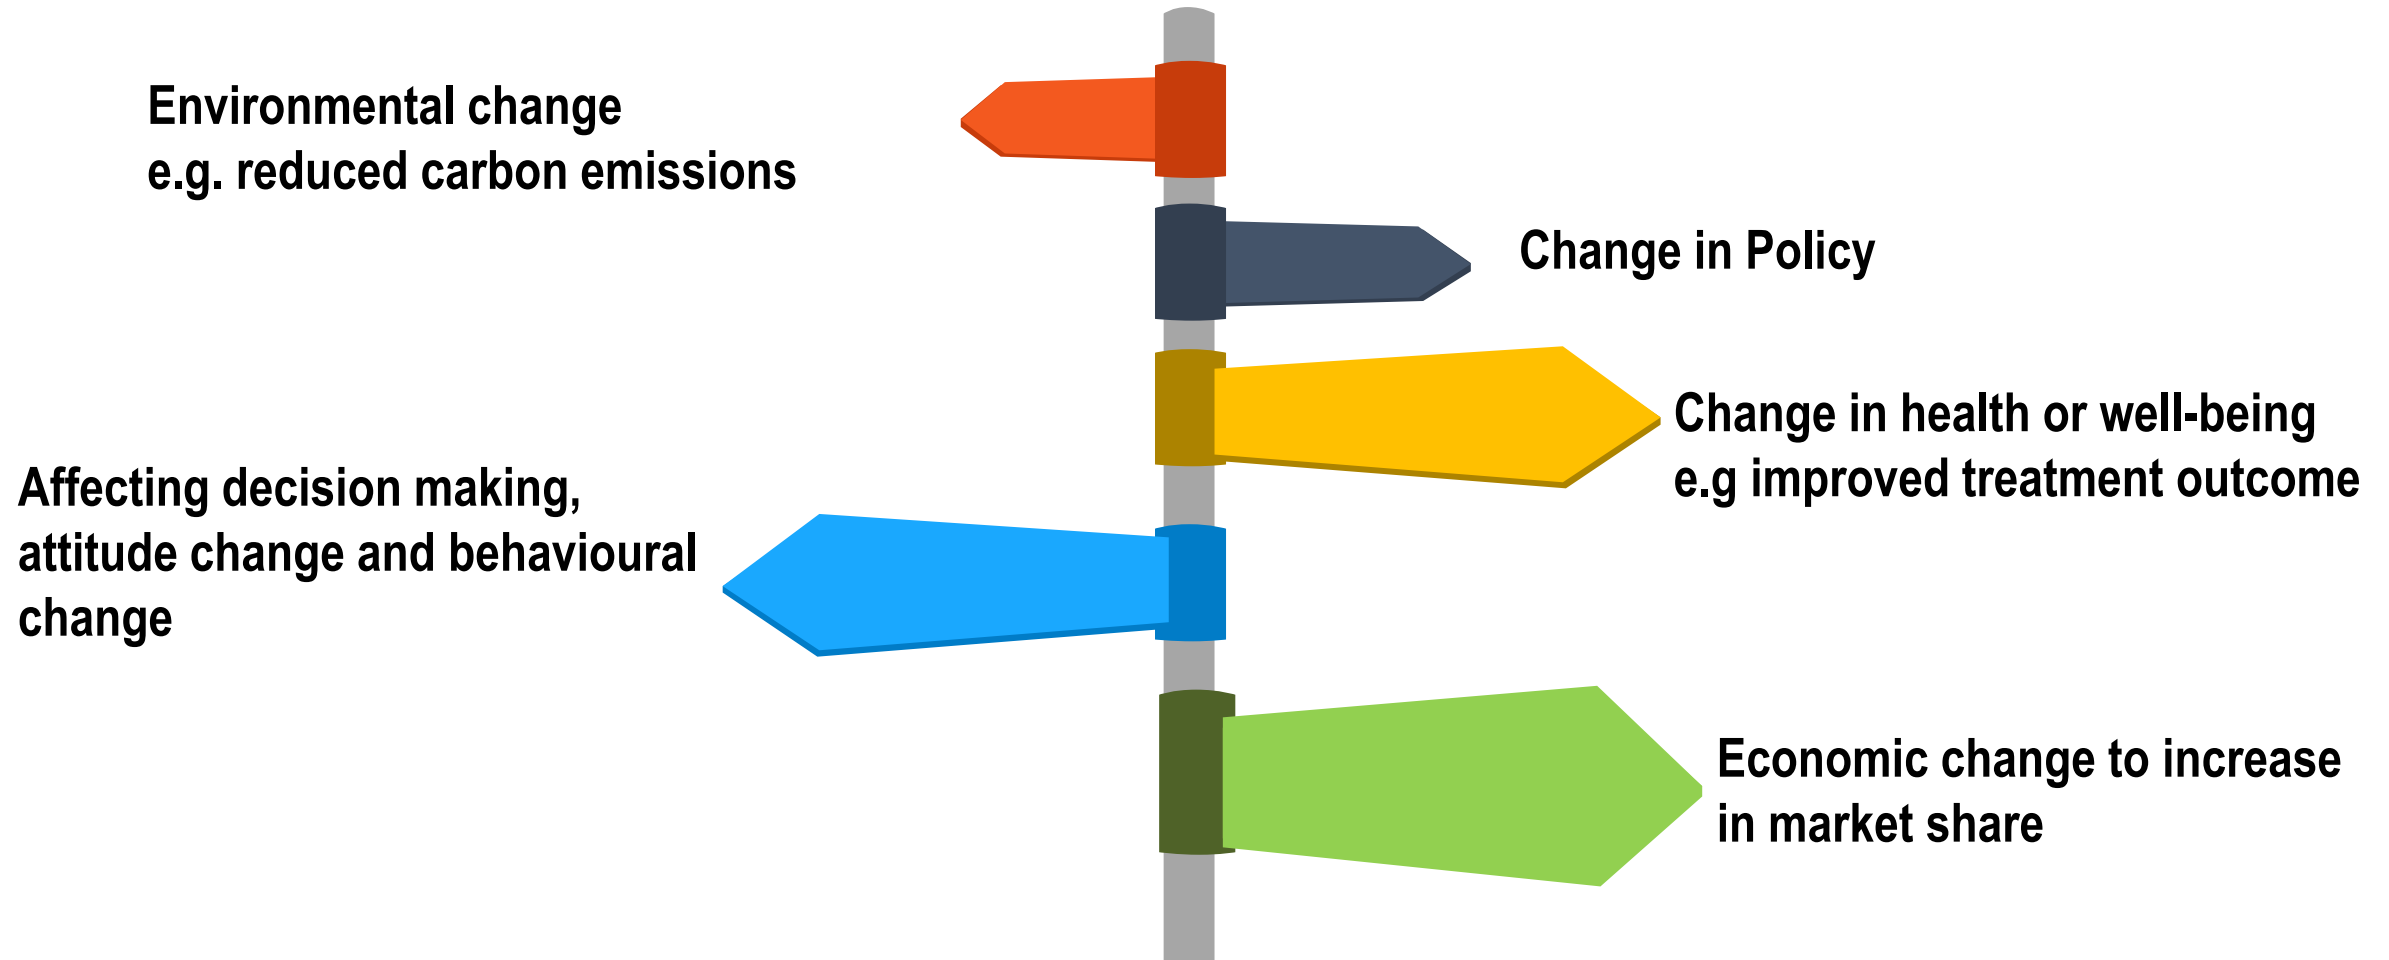

# Example of Research Output

**Research impacts can be manifest at any stage in the research life cycle and beyond, often stemming from unexpected/unintended outcomes, and generated through a range of diverse pathways**

# Forms IMPACT Take

Potential impacts can be generated through a range of **diverse pathways**, can take **many forms**, can become **manifest at different stages** in the research process and beyond and can be promoted through many different mechanisms.

# ADDITIONAL INFORMATION

B(viii)	<p><b>Latest CV &amp; Researchers' Profile (maximum 1 page each- Please use attached template for the profile and enclose in the Appendix)</b>  <i>CV Terkini &amp; Profile Penyelidik (maksimum 1 muka surat bagi setiap dokumen - Sila gunakan template yang telah disediakan bagi profil penyelidik dan lampirkan di bahagian Apendiks)</i></p>
---------	--

D	RESEARCH DETAILS / BUTIRAN PENYELIDIKAN
Di)	<p><b>Detailed Proposal of Research Sub-Programme :</b>  <i>Maklumat cadangan sub-program penyelidikan secara terperinci:</i></p> <p>(a) <b>Abstract (maximum 150 words)</b> <i>Abstrak (maksimum 150 patah perkataan)</i></p> <p>(b) <b>Graphical Abstract (maximum 1 page-A4)(Please use attached template and enclose in the Appendix)</b> <i>Abstrak grafik (maksimum 1 muka surat-A4)(Sila gunakan template dan lampirkan di bahagian Apendiks)</i></p> <p>(c) <b>Research background including Introduction /Hypothesis /Research Questions and Literature Reviews.</b> <i>Keterangan latar belakang penyelidikan termasuk Pengenalan/kenyataan hipotesis / persoalan penyelidikan dan kajian literatur.</i></p> <p>(d) <b>SMART Objective (s) of the Research/ SMART Objektif Penyelidikan**</b></p> <p><b>SMART</b> i.e. specific, measurable, achievable, realistic and timely</p> <p><b>SPECIFIC:</b> outline in a clear statement precisely what is required.</p> <p><b>MEASURABLE:</b> include a measure to enable you to monitor progress and to know when the objective has been achieved.</p> <p><b>ACHIEVABLE:</b> objectives can be designed to be challenging, but it is important that failure is not built into objectives. Employees and managers should agree to the objectives to ensure commitment to them.</p> <p><b>REALISTIC:</b> focus on outcomes rather than the means of achieving them</p> <p><b>TIMELY(or time-bound):</b> agree the date by which the outcome must be achieved.</p>

<b>S</b>	<b>Specific, Significant, Stretching</b> Outline in a clear statement precisely what is required.
<b>M</b>	<b>Measurable, Meaningful, Motivational</b> Include a measure to enable you to monitor progress and to know when the objective has been achieved.
<b>A</b>	<b>Agreed upon, Attainable, Achievable, Acceptable, Action-Oriented</b> Objectives can be designed to be challenging, but it is important that failure is not built into objectives. Employees and managers should agree to the objectives to ensure commitment to them.
<b>R</b>	<b>Realistic, Relevant, Reasonable, Rewarding, Results-Oriented</b> Focus on outcomes rather than the means of achieving them
<b>T</b>	<b>Time-based, Time-bound, Timely, Tangible, Trackable</b> Agree the date by which the outcome must be achieved

## Allocation

- salary & wages: max = **RM 30,000/year**. Each SP must hire at least 1RA
- Travel = **fieldwork ONLY**
- **X equipment**

## Research continuity

- Must **show evidence** that a **proposal** is ready for submission for **external funding application** as a **continuation** of the **work** in **IIRG** (at month 21)

## Research output will be ONLY accepted if:

- **after** the grant is being **awarded**.
- **relevant** to the project/programme approved.

# HIGHLIGHTS

## UM Safety & Research Handbook

- Applications are subjected to all requirements stated in **UM Safety & Research Handbook**. **DISQUALIFIED** if failed to do so.
- Proof of submission of **Notice of Intent [NOI]** to IBBC must be attach with your proposal for research involving use of **infectious & potentially infectious agents/materials & biological toxins**.

## Research Ethics

- Research involving **human participants** and the **use of vertebrate animal subjects** must be referred to the appropriate ethics committee
- If your proposal is successful, please be reminded that **researchers are responsible for obtaining the biosafety and ethics approvals. Researchers are to take full responsibility if the project is conducted without the approvals.**
- If researchers do not show any proof of biosafety and ethics approvals within six (6) months of grant approval, the research project may be suspended.

# CHECKLIST A1

## NOTE

- The Programme Leader must ensure all documents in the checklist are submitted.
- **Incomplete applications will not be processed.**

No.	DETAILS (Please tick ([v]))	Programme Leader
1.	A1 Form - Programme Summary	
2.	CV (For the past 5 years and MUST be relevant to the proposed programme) - maximum 5 pages	
	i. Programme Leader & Sub- Programme Leader	
	ii. Co-researcher(s) (Internal & External)	
3.	Biography (maximum 1 page)	
	i. Programme Leader	
	ii. Sub- Programme Leader	
4.	Researchers' Profile (maximum 1 page)	
	i. Programme Leader	
	ii. Sub- Programme Leader	
5.	Commitment Letter for External Co-Researcher/s (if any)	
6.	Document related to engagement with stakeholder (if any)	
7.	Graphical Abstract (maximum 1 page)- Programme Summary	
8.	Gantt Chart of Research Activities including Milestones- Programme Summary	
9.	Flow Chart of Research Activities - Programme Summary	
10.	Softcopy of proposal-with attachments (Programme & Sub-programme) to Research cluster office	

# CHECKLIST

## A2

No.	DETAILS (Please tick ([v]))	Sub-Programme Leader
1.	A2 Form- Sub-Programme	
2.	Graphical Abstract (maximum 1 page)- Sub-Programme	
3.	Gantt Chart of Research Activities including Milestones	
4.	Flow Chart of Research Activities	
5.	Justification/ Details of Proposed Budget	

### NOTE

- 1.The Sub-Programme Leader must ensure all documents in the checklist are submitted. **Incomplete applications will not be processed.**
- 2.Does this research need **BIOSAFETY APPROVAL?** (if yes, proof of submission Notice of Intent [NOI] to IBBC must be submitted prior to proposal evaluation session)
- 3.Does this research need **ETHIC APPROVAL?** (if yes and your application is successful, please be reminded that researchers are responsible for obtaining the biosafety and ethics approvals. Researchers are to take full responsibility if the project is conducted without the approvals. If researchers do not show any proof of biosafety and ethics approvals within six (6) months of grant approval, the research project may be suspended.

# EXPERIENCE FROM PREVIOUS IIRG CYCLE

## 1. Criteria for Interdisciplinary Research Grant

### 1.1 Background of the University of Malaya Impact-Oriented Interdisciplinary Research Grant Programme (IIRG)

The University of Malaya Impact-Oriented Interdisciplinary Research Grant Programme aims to change the research culture within UM to a more integrated interdisciplinary approach.

Interdisciplinary research can be defined as a mode of research by teams or individuals that integrates information, data, techniques, tools, perspectives, concepts and/or theories from **two or more disciplines or bodies of specialized knowledge** to advance fundamental understanding or to solve problems **whose solutions are beyond the scope of a single discipline or area of research practice.**

([https://www.nsf.gov/od/oia/additional\\_resources/interdisciplinary\\_research/definition.jsp](https://www.nsf.gov/od/oia/additional_resources/interdisciplinary_research/definition.jsp))

In the context of the IIRG, researchers must come from at least two (2) different disciplines and two (2) different faculties.

## 2. Linkages between sub-program (connectivity)

- Some programmes do not have interactions between sub-programmes.
- Lack of integration between sub-programmes

# **EXPERIENCE FROM PREVIOUS IIRG CYCLE**

## **3. Incomplete application form (Technical Knockout)**

- Supporting documents eg: Gantt Chart, milestone, commitment letter, researcher profile, cv for co-researcher

**4. Some researchers still confuse milestones with activities.**

**5. Academic output is not considered as research impact.**

**6. Unclear impact pathway / Need to clearer on how to monitor & achieve impact**

**7. Last minute submission of proposal**

# INVITATION TO IIRG CYCLE 2020 CLINIC

7 – 9 July 2020; 9.00 am – 12.00 pm

<input type="checkbox"/> Nature-inspired Technology (Driving Drug Discovery)	<input type="checkbox"/> Cancer	<input type="checkbox"/> Cultural, heritage & civilization	<input type="checkbox"/> IR 4.0
<input type="checkbox"/> Curiosity-driven Fundamental Research	<input type="checkbox"/> Active Ageing	<input type="checkbox"/> Behavioral studies	<input type="checkbox"/> Water & environment
	<input type="checkbox"/> Innovative Health	<input type="checkbox"/> Education for the future	<input type="checkbox"/> Sustainable living
	<input type="checkbox"/> Mental Well-being	<input type="checkbox"/> Smart society	<input type="checkbox"/> Energy
	<input type="checkbox"/> Lifestyle Diseases		<input type="checkbox"/> Material

**Venue: Banquet Room, Lobby, Research Management & Innovation Complex, IPPP UM**

- Slots are limited and based on first come first served basis - limited to 3 participants /research group /slot
- Participants are **REQUIRED** to present the of the concept of your research (Pitch Your Proposal - 3 minutes)
